Whether on stage, video or podcast Emile shares his breakthrough methods of moving listeners from fear and limiting beliefs to flowing in a state of presence and taking action on living their vision via their professional and personal value system. Emile offers an aware and empowered approach to self development by motivating people to tap into what really matters and see their true potential.

ABOUT EMILE

Emile Steenveld was once a struggling Australian model and actor in LA who was working three jobs, doing 15 hour days in the midst of a recession in which his car was repossessed as he was on the edge of leaving his dreams behind. That was when Emile decided to place bets on himself and he committed to a full immersion of self development and aligning himself with his purpose and values.

Today, Emile is a Business and Relationship Coach exclusively focusing on the inner workings of the relationship with the self and the mind. Emile has been speaking and coaching in this field for more than 8 years. Emile guides individuals to break down inherent beliefs and old habits that sabotage growth and profitable results. He has worked with high profile business leaders across the world, from Australia, Dubai, America, and also worked on mental health retreats in Bali, where he now resides.

Emile lives to help you crack open your unique gift and voice that deserves to be seen and heard.
